“ I was so saddened to hear about my dear friend Carla. We spent many fun days working in microbiology when she still worked as a technologist. I really have missed Carla since I moved away from the state, she was one of my dear, dear friends. Carla would do anything for anyone, including animals. Knowing the type of person that Carla was, we can all be assured that she is in a much better place with our Lord. I feel like I have lost a part of my past and this loss will definitely leave me with an empty spot in my heart. Carla, you will be missed by many!

“ There can be no greater gift, nor speaking of the wonderful spirit of Carla's memory, than her donation to cancer research, not just monitarily, but with her willingness to share her body for such research. After reading all the wonderful notes here about her SPIRIT, LOVE FOR LIFE, COMPASSION and love for animals, I so wish I was fortunate to have known Carla. For those that were, I pass on my PRAYERS and wish you all to remeber her legacy as I surely will! Hope more people will emulate her as she now watches all of us from ABOVE!!! CHEERS to a REAL! ANGEL!!!!

“ *Carla was a caring and compassionate person. There wasn't one conversation we had, that she did not have me laughing. She had a way of finding humor even in some of the worst circumstances. She will be missed by many.*
