“ Donny and I were in Operations at Kammer Plant. We seemed to get on the same team quite often through the years. I valued our friendship very much. Donny was one of the most intelligent men I have ever known in my life. I owe it to him for some of my mechanical and instrumental skills. He showed me how to do so much on the unit and he taught me how to fix things correctly so that it would work when needed. He was such a great person with a wonderful sense of humor. I will never forget the night that he had the possum on a leash.. nevertheless we were never bored with Donny on the team. And from what he had told me, his parents were never bored once he decided that he could take things apart. He learned how to put them back together, and even better than they were.
My heartfelt sympathy and sincerest condolences. 🙏

“ Don was my friend. He taught me to drive a stick shift. His Camaro. We spent time in the garage together. He drove me home from school. I am very sad to hear of his passing. I knew his mom and dad quite well. They were good people. Don was the greatest.

“ I had honor and privilege of working with Donnie for 27 years in Operations at Kammer Plant. He was a lot of fun to work with and was so very knowledgeable, not only about the Plant, but so many other things too. I don't know how many times I asked him about what my vehicles were doing and he was right every time. He will be missed. I am sending my prayers to the family in your time of grief.

“ *Dear Ellen, Stephanie and Michael, Duke and I are saddened to hear of Donnie's passing. His compassion to his neighbours was shown by his actions. We appreciated all the kindness and work Donnie did for us this year, wanting nothing in return. Can't express in words what it meant to us. You have our deepest sympathy during this difficult time. Our heartfelt thoughts and prayers are with you all. Duke and Marisa*
