“ *We miss you already, Linda. Our family first met Linda in June 1993, and she was the first person we met upon moving to Culpeper, Virginia. Only later did we find her again when we got to church. She quickly became such a close friend that our kids still call her Aunt Linda.*

Linda was always there for anyone who needed her, no matter what the need might be. We love her dearly, and we'll see her again. Our prayers are with the family.

“ I am so sorry to hear of the passing of your mom and grandmother. She was a kind, hardworking Christian lady. I could share many memories about her. But, two came to my mind immediately! Did you know that your mom was the first to ever suggest an academic banquet to honor students who excelled in the classroom? She approached me probably nearly 30 years ago about this event. Myself, as well as the other teachers, were on board immediately! Because of your mom, this continues today!!!! She wanted to recognize other children just as if they were her own! And the other memory is when I got the wild idea to have a group of children perform "The Skill of Pericles". One call to Linda and she, as well as Kris were on it! Perfect costumes! What does all of this mean? She will certainly be missed by her family and the many people in our little town. But her legacy lives on in the memories of her! The loss is great, but so are the memories! Prayers to all.
Love,
Linda Schmidt

“ *Dear Kris, Shaun, Chad, Johnna, and families, I'm thinking of the song that we all love, Some glad morning when this life is o'er, I'll fly away....to a home on God's celestial shore....to a place where joys will never end...I'll fly away, OH GLORY!! Your dear Mom, Grandma, Great Grandma and so much more embraced, believed, and waited for that day when she could fly away. The hard part is that in her life she made life so much better for all of us that it is hard to let her go. May God be with you all as you lay your dear one to rest. May He comfort you as He comforted her. Love, Bart & Joyce(Indermuhle) Wiggins*
