“ To the therapy staff at Scenic: Thank you girls for everything. My dad loved therapy, it was his break from the nasty reality that his life had became. You wouldn't think anyone would like something that made him work but he did, you girls took the time to listen to him. He was an awesome man and I only wish you could of seen him in his good days. He didn't know a stranger and made friends with everyone. Scenic provided him a home when no one else would. I know he was taken care of there and that made me rest a little easier, even though I drove you guys crazy calling.lol Thank you for everything.

“ Jill and family,We were so sorry to hear of your father's passing. We enjoyed his sense of humor, his smile while he was putting up with us in therapy. They teach in class that we are not to become emotionally involved with patients, but there is no way someone could know George and not become involved...he was a very special person, and he will be sadly missed. Believe for strength and comfort through these days for all of you.
