“ Vernie was a part of the 'special' DNA that came with being a part of the Potts family. Mom mom and Pap pap created a gene pool that CAN be expressed with an enormous amount of loving and caring words. I won't list the words because i am confident that anyone who knows a Potts sibling knows what i mean :) She remained sharp, strong willed and loving till her time was called. Let us remember the happy and 100% positive memories that Vernie left us.
